

SSYC Winter Boat Storage FAQ

Members already storing their boats at SSYC

If you are a member in good standing and are storing your boat at SSYC, you may renew your Winter Boat Storage Contract the following year. The SSYC office will contact members storing their boats at the club when it is time to renew your storage contract. The deposit, fees, agreement and a certificate of insurance are due as stated in the storage contract.

How do I apply for winter boat storage?

First, you must be a SSYC member. Obtain a Winter Boat Storage Waiting List Application from the office or download it from this website. Complete it and turn it in with a \$200 nonrefundable deposit and you will be placed on the waiting list. When you sign your Winter Boat Storage Contract, the \$200 will be applied toward your total bill. If you are on the waiting list but decline to execute a Winter Boat Storage Contract when offered, the \$200 deposit will be forfeited and you will be removed from the waiting list.

When will I know if I can store my boat at SSYC?

Vacancies in winter storage availability are filled each spring from members on the waiting list, based on member seniority. The office will post the waiting list on the club bulletin board, in order of member seniority, and offer storage contracts to members as the available space allows.

The Waterfront Services Committee chair and Lift/Launch Team may use discretion and offer winter storage to a member whose unique boat characteristics (i.e. small size) or circumstances enable us to exceed the expected capacity. A member storing their boat at SSYC under these circumstances is not entitled to renew their storage contract.

What if I'm unable to renew my winter storage contract because my boat cannot reach SSYC?

A member in good standing entitled to renew their winter storage contract may opt to not execute their storage contract for a period not to exceed one year if their boat cannot be reasonably stored at the SSYC, due to distance (i.e. cruising) or boat repairs that are required to occur off-site. The fee for a one year winter storage sabbatical without being placed on the wait list will be one half of the storage contract fee.

What does winter boat storage cost?

Storage fees are documented in the Club handbook. Copies are available from the office staff or on the Club's website (log-on to the website, in the members section).

What is expected of slip owners each spring and fall?

At the time you are offered a Winter Boat Storage Contract, you will receive a copy of the environmental rules. Please also refer to "A Quick Guide for Those Storing Boats at SSYC" which offers suggestions to make your boat lift/launch go safely and efficiently. These documents can be referenced and downloaded here in the Winter Storage section.

What if I have questions or problems with winter boat storage?

Contact the [Director, Waterfront Services](#).
